

None Like God

I know a King who lives forever
Sing with me...
There is none like God in all the earth
And none will be like him
People come and go; they live and die
But God remains still
Flowers blossom yet they die
Flowing rivers can still dry
For we are just mortal men
God remains the immortal King
He reigns supreme over all the earth
He's the King above every other king
There is none like God in all the earth
And none will be like him
People come and go; they live and die
But God remains still
Awon ijoye le po laafin
Oba o le ju kan soso lo
Mo si fila foba to foba je
Mo ki oba to wa titi lai
Ekun oko farao
Kiniun eya Judah
There is none like God in all the earth
And none will be like him
People come and go; they live and die
But God remains still
Immortal God invisible God
The only wise God the all-knowing
The perfect God
The ruler of all the world
There is none like God in all the earth
And none will be like him
People come and go; they live and die
But God remains still
