

One Naija

Dr. Paul

Chorus

We are the light, the light of Naija oo
Let us live together, love each other, grow together as one,
If you believe just say one Naija, yeah yeah
Cos you know, you are my broda, sister,
I wont hurt you (pls don't hurt me)
Let not tribe, religion, politics, and our difference tear us apart
If you dey hear me shout One Naija...ye ye
Through our darkest moments as a nation, we must let our lights to shine

Solo:

We are the light All: We are Naija
We are a peaceful nation
We are the light All: We are Naija
The giant of Africa
Oh the labours of our heroes past
Shall never be in vain
We are the light (We are Naija)
We are a precious nation
We are the light (We are Naija)
We are a gracious people
For united we will stand together
We will build as one
We are the light.
Whenever you pray, just pray for Naija, oo.
Cos we are the people of destiny and prophecy
That must be fulfilled
So let's believe- in the power of Naija,
Let us stand together, work together, smile together and laugh.
Forward ever Nigeria
Komi nisa dara gali za ta waye oo (Though the night is long, the day must come)
We must realise- we have only Naija
There is no better place than this country, let's help make it work
