

# Heaven Help Me

## Alifted

### VERSE 1

I wanna glide to the moon  
And zoom into a bloom of stars  
Hard Hard dreams that hardly come true  
When I look through the July sky  
Future so bright as angels walk by  
Cool Cool dreams that truly come true

### CHORUS

If I believe it, then I can do it too  
Heaven Help me (2ce)  
To do this and make the right choices  
Storms will come, but its just an ice storm in a glasscup Yoo!!

### VERSE 2

My Destiny is not of chance game  
It's a matter of a choice  
My future is not a waiting game  
It's a thing to be achieved  
My courage is no fear + my prayers  
Yes Success is itching and burning my skin

### CHORUS

### BRIDGE

Whether the weather be hot  
Whether the weather be cold  
Whatever the weather  
Common guys, Common guys, lets do this together  
Whether the weather be hot  
Whether the weather be cold  
Whatever the weather  
Common girls, Common girls, lets do this together
