This moment here
this moment right here is for You
my worship here
my worship right here is for You
Take all of it
its for You, all of it
This moment here
this moment right here is for You
my worship here
my worship right here is for You
Take all of it
its for You, all of it
You deserve my worship right here(echo)
You deserve my praise right here(echo)
You deserve this moment right here
it is for You
You, You, You
Repeat
Take all of it
