Ehn,

Ogbeni dance utunu.  
If you feeling the vibe,  
Just dab utunu.

### VERSE 1

Thank Him for His blessings, cos am never ever regretting.  
That's why I stay patient cos I know my time is coming.  
Av been told and I know that this will be a long journey.  
But with the lord by my side, I will make it in a hurry.  
I pull up in a drop top, looking pompous.  
And everytime they see us, they like where he come from.  
The swag is too much, make him give us small jor.  
But no be me, all the blessings na from God.  
No dey denge pose in the presence of the Lord.  
Let me see you dance and move to the rhythm of the song.  
I don't need no frowns on your face right now.  
Put your hands up like a stick up and worship the Lord  
Oya dance for the Lord  
Dab for the Lord  
If you can't do that  
Just clap for the Lord  
Am about to go in with a flow you never heard.  
Fly boy, now am feeling like a bird.

### VERSE 2

I thank God for everything I got.  
With the way am living, I dot need a gat.  
Mehn I just dey shine so the haters dey spark.  
The flow is heavy boy, I feel like a dam.  
Never ever gon change, I was made to be great.  
Put me on the race, I will never be late.

When Jesus comes, nobody knows.  
So be a yes man to the holy scroll.  
Iniminiminymo, am never picky with the flow.  
I chop the beat like vegetables, am healthy with a sick flow.  
The lines that I drop got everybody talking.  
And my flow is complex like my tongue is shopping.  
Av got bars for days like Monday to Thursday, get it?  
Like Thursday to Sunday.  
Am a fly boy but not like a witch.  
More like an angel cos the swag is clean.
