

# Come Through

## 2winny kings

Intro

Son of John

DJ Flames

2winny kings

Verse 1

See we remember

Back in the days, we remember

Thinking about our whole life

Thinking about how we started (started)

We started with big dreams

Now dreams turning reality

We never ever gave up

Make we no lie, the journey hasnt been easy (easy)

Chorus

Now we know oo

That through the storm and the rain

Even in tears and in pain

That God will always come through

For Us

Come through

For Us

Verse 2

Your grace (x3)

Is all that we see

Your love (x3)

Is all that we feel

You give us joy deep inside

And Peace that we cannot deny

When the whole world said we couldnt do it

You stepped in and put your grace on it

Chorus

Verse 3 [Evo]

I Put the money in a verse

I put the body in the course

My friends took reverse

My other buddies took a curve

When I had no where to turn

My God told me to look him up

Trying to be straight, I told him I was tired of giving up

He told You was never tired, why you always acting up?

Pull your self together, why dont you just drink up from a cup

Im always there, Im so near

You better know who got you here

Be calm and be patient  
Dont let nobody tell you different  
I will always come through when you needing me  
I been always with you from the beginning  
Why are you confused,  
You mean a lot to me  
I just wanna see you just believe in me  
Chorus
