

Not a slave

Dorisphils

VERSE 1:

Sitting, Sulking and whiling in pains
Thinking of the pastures that just failed
What have I done wrong?
Why can't I just go on and on?.....
I've been chained to my past.....
I have a feeling I won't last
Met an old friend on my way
I tried to fake a smile but no way
She said "Hey! What's this grief?
What's this pain you just can't leave.....
I held back but opened up at last.....
I said please help me if you can

CHORUS 1:

I feel I'm enslaved
Living in a cave
Held and bound in chains
And going down the drain

X2

Please help me if you can

VERSE 2:

She told me of a man named Jesus
Who died on Calvary tree for us
Old things are past away
And all things are now brand new.....
He made us first and not the last.....
We are victorious at last

CHORUS 2:

You are not a slave
For the price he gave
Made you free and saved
Old things are past away.

BRIDGE 1:

Past away, past away
You're a winner not a loser
You're a success not a failure
You're a Victor not a victim
He paid the price for you
You're the head and not the tail
You're above and not beneath
You are free and free indeed.....

CHORUS 3:

I am not a slave

For the price He gave
Made me free and saved
Right now I'm so Brave

4x

I am not a slave
For the price He gave
Made me free and saved
Right now! Right now!! Right now!!
I am not a slave! Hey!
I'm free indeed
The chains are broken
I say I'm free, FREE
I'm FREE, FREE INDEED
