

Shine

[KBell](#)

Its been a long road
Life is too short
oh, its too tough
But Ive got to achieve
This noise keep weighing me down
Telling me that I cant
This gravity pull is so intense
A dream is a dream,
Never allowed to die no matter what!
FOCUS!
Ignore noise that flows around
Listen to the voice
That motivate you to achieve the impossible
So palatable
N exciting is a dream thats achieved
A winner, a conqueror
Thats who you are
From miles away weve come
Adventure ahead we press on
We all wear a mask
In disguise to the truth
Cant escape
If you try to
You can own who you are
Ignore what they say
Love what you do
Making it a spectacle
Easy to be gazed at
I tell you
You can achieve
The Time is now
Oh Oh Oh
Hey you
Shine shine
Your light has been made
Shine shine
Time to break the limit
Shine shine
Spread your wing now its shine
I heard them too
Calling you a wanna be
BCos of what you wanna be
Little did they know?

Everyone of value today
Were once a wanna be
So what is gonna be
I say keep your dream alive
And catch a ray of hope
Dreamers are lonely
Fear is a prison
Dream might break you
Dont let it mar you
Let it make you
BCos you are not alone
Preparation time is almost over
Fulfilment time
Is here at last
Keep your head up high
Do not fret
Keep your dream alive
Stop gazing at the storming weather
If it cant kill you
It makes you stronger
Your strength lies deep within
No matter what life brings your way
Never bow to defeat
Allow nothing
To break your spirit
The Time is now
Shine shine
Your light has been made
Shine shine
Time to break the limit
Shine shine
Spread your wings now
Its time to shine
You can make it if you try
You can take it if you reach out
Give it all youve got
Even If that is all it takes
Carry your candle now
Run through the darkness
Go light the world
Ignite your world
