

Come To Me

[Jo Deep](#)

Come bring your burdens to my feet
All of your losses and defeat
Come to me and take rest
There's no need for engine knocking
No need for slowing down no more
Come to me and take rest
Come to me
To Me, to me, to me yeah
Come to me and take rest
Are you lost of least of last
Jump unto my list and last
Come to me and take rest
There's no need for feeling low
In my kingdom you're the best ones
Come to me and take rest
Just...
Come to me
To Me, to me, to me yeah
Come to me and take rest
