Have I become your enemy cos I told you the truth
Have I become your enemy
Cos I told you the truth
You hating on the messenger
Take the blame
Well I'm gonna take the blame
Hate the game
You hate the messenger now
Let me take the blame; prophet
You're beefing the prophet
When you should hate the game
You hating the messenger
Take the blame
You hating the prophet ohhhh
Hate the game
Have you heard so da

Have you heard so da
Have you heard now now now
Lo and behold you're hating the prophet the messenger
So da be
