

Already Won

Calledout Music

You've been fighting for so long
Waiting to sing your victory song
You feel like you're not where you belong
But there's a breakthrough coming
There's a breakthrough coming
Jesus already won your battle
He laid it all on that cursed tree
You need to believe that it's over
Speak the word my friend and cross over
And live your life like you are free
So when the enemy tries to take you back a step
Just remind him of your victory and your blessings
Say I'm a new creation, my past is gone and right now I believe
That I know how the story ends
The battle is already won

Chorus

It's already won

It's already won

The battle is already won

Repeat Chorus

Don't you ever think you're hopeless
Cuz you don't know what's in your script
While it might be your lowest chapter
And we know that joy comes after
But there's no season we can skip
Yeah yeah there's no season we can skip
So when the enemy tries to take you back a step
Just remind him of your victory and your blessings (blessings on blessings)
Say I'm a new creation, my past is gone and right now I believe
That I know how the story ends
The battle is already won

Repeat Chorus (4x)

Days come and nights change

The truth remains

You've won it all for me my God

No matter my come my way

I'll say it with no fear

You've won it all

For me my God

Even when I'm going through

The darkest of valleys

You've won it all

For me my God

Even when Im going through
The darkest of valleys
Youve won it all for me my God
Im holding on to your promise that says
Youve won it all
For me (ohh)
Chorus(2x)
