

I See Him

Frank Edwards

BY Frank Edward

I can see Him from afar with fire in His eyes
Hes standing by your door Hes waiting for you

Chorus:

I see Him standing by the door
With fire in His eyes and healing in His wings to heal
Someone who believes so open up your heart
Hes waiting for you.

Life is more than just a dream

How far can you see

What you say is who you are

When you believe you will receive {Chorus}

oh oh oh should i go or should i stay oh

There is a fire in my eyes and healing in my wings oh oh yeah

Whatever you want is here today oh oh oh

Just open up your heart and let me in

And I hear God Speaking through my mind

He's seeing through my eyes

With fire in His eyes to heal

Someone who believes open up your heart

Hes waiting for you.
