

All the world You mean to me

T Sharp

Verse 1:

Love is never far away
You can never tell how close it is Unless you feel
Love is like a guiding light
Showing us the way and leading us Along the way

Bridge 1:

I never knew what love could be
Till the day you came to me
All my fears and worries fly away
Yesterday is gone to me
A brand new day now I can see
You and I together all the way

Chorus:

All the world (you mean to me) 3x
I cannot tell it all

Verse 2:

You are the way, the truth and life
You alone will always be my guide No other way
You brought me out of miry clay
Gave me brand new life eternally To live again

Bridge 2:

I never knew how much you cared
Till I felt this love we share
All my fears and worries fly away
All my life, my hopes and dreams
In you alone now I can see
You and I together all the way

(Repeat chorus)

Refrain:

I think of you and I cant be lonely
Its you and I together and forever
Another day is an empty day without you
(Repeat chorus)
