

In Your presence

Seyi Oluwafemi

In your presence there is fullness of joy
At your right hand, pleasures evermore... Jesus .
In your presence joy evermore
Lord I love to worship at your feet. Lord I love to worship you
Sing and give praise to your name
I will bow and worship at your feet
In your presence there is fullness of joy
In your court pleasures evermore
Lord I love to worship you always And I live to worship
you always.. sing! I love to worship you always
I love to worship you always I love to worship
you always I love to worship you always
Love to worship Dwelling in your presence
always Love to worship Your presence where you speak
Your presence where you renew...
Jesus Love to worship Love to worship you
I found renew spirit I found grace unending
I found favor Dwelling in your presence always
Love to worship you (Repeat) Only you deserve my
praise I found favor, I found peace, I found joy, unending joy.
