

This Melody

Solomon Lange

Chorus

This melody is coming from my heart
The things you do dey make me wanna shout
I wrote this song as offering unto you
Please take this praise and let it please Your heart
This melody is coming from my heart
The things you do dey make me wanna shout
I wrote this song as offering unto you
Please take this praise and let it please Your heart

Verse 1

It was December
I still remember
When my grandmama
Said in a prayer
She asked the Father
To light a fire
In my heart that will change the world
You answered her prayer and put a new song in my heart
And the song you gave me is turning the world around
And Your fire, is now a melody, a sound of praise unto you

Repeat Chorus

Verse 2

It was a great night
When the old preacher
Asked all the young boys
To step out for prayer
When we all stepped out
He asked the Father
Please use this voice and change the world
You answered her prayer and put a new song in my heart
And the song you gave me is turning the world around
And Your fire, is now a melody, a sound of praise unto you

Repeat Chorus
