

He Knows

Enkay

Verse 1

How many times did u try reaching out?
How many words did u put in your prayers?
Guess its been a while you've been crying late at night
No need to fear he knows you'd be here
He never promised there wont be shadows
But he assures an arm of strength

Chorus

He knows your heart is broken
He hears your faintest cry
He knows, on his palm your name is written
He knows, he knows

Verse 2

He never lied when he said he feels your pain
He'll never fail even when u lose your faith
Hes still a warrior who has never lost a fight
Hes still the god he lives forever more
He never promised there wont be shadows
But he assures an arm of strength

Repeat Chorus

Bridge

So don't despair
He knows each strand of your hair
He knows your battles
And you cant fight it alone
He knows how much you can bear
Before you call hell be there
He loves you and he wont let down, let you down

Repeat Chorus

Ad lips in chorus

He knows

And that's why he's making a new pathway
Breaking, shaping, molding, conforming to his will

So don't you cry

Give it all to Jesus

He knows, he loves you, he cares

All he wants you to do is

Be still and know that he is God
