

Strengtheners

Samuel Suh

You are my strength

No matter how I hide I can't hide from you

No matter how I run I can't run from you

Even in the deepest dark you see through

Everyone can lie but still you stay true

You are my strengthener

You are the one that gives me strength

You are my strengthener

You are my helper till the end

You are my strengthener

You are the one that gives me strength

You are my strengthener

You are my helper till the end

No matter how I hide I can't hide from You

No matter how I run I can't run from You

Even in the deepest dark You see through

Everyone can lie but still You stay true

You are my help in times of need

You know my every single deed

I'm nothing without You

Cause my everything is You

You are my help in times of need

You know my every single deed

I'm nothing without You

Cause my everything is You

When the spirit be willing and the flesh not so strong

With your righteous hand, you still carry me on

When the spirit be willing and the flesh not so strong

With your righteous hand, you still carry me on

You are my strengthener

You are the one that gives me strength

You are my strengthener

You are my helper till the end

You are my strengthener

You are the one that gives me strength

You are my strengthener

You are my helper till the end

You are my help in times of need

You know my every single deed

I'm nothing without You

Cause my everything is You

You are my help in times of need

You know my every single deed

I'm nothing without You

Cause my everything is You

No matter how I hide I can't hide from You

No matter how I run I can't run from You

Even in the deepest dark You see through

Everyone can lie but still You stay true

You are my strengthener

You are the one that gives me strength

You are my strengthener

You are my helper till the end

You are my strengthener

You are the one that gives me strength

You are my strengthener

You are my helper till the end
