

Follow me

Joi Mor

Anywhere I go
Your blessing follow me go o
Whatever I do
Your Favour follow me do o
Anything I touch
It must turn to Gold o
My savior, my lover
I go dey follow you go
When they look at you and say
You will not make it
Look at them and say, I've got Jesus
When they look at you and say
You will not carry your child
Look at then and say, I've got Jesus
See your angels will never let me fall, let me fall
You guide me all the way, all the way..
I'm precious to you and that is why you love me so
You'll never ever ever let me go
REPEAT CHORUS
When they look at you and say
You will not make it
Look at them and say, I've got Jesus
When they look at you and say
You will not have that job
Look at then and say, I've got Jesus
See your angels will never let me fall, let me fall
You guide me all the way, all the way..
I'm precious to you and that is why you love me so
You'll never ever ever let me go
REPEAT CHORUS
Okay see..
E dey follow me
E dey follow me
E dey follow me go
Your blessings dey follow me
E dey follow me
E dey follow me go
You never ever ever let me go.
See, I'll be chasing after you
Cos you're chasing after me...
