Verse

On my way

Im coming closer

But I have to choose to follow my own way or to walk with JESUS

Lord would you show me the way

For you give me your peace  
All your promises work good for me  
So I choose  
So I choose to follow you  
I choose to trust in you  
Cos every day your grace is new  
All in all in its all nothing  
I dont wanna live between the line  
Cuz Im the young Daniel  
Reading writing on the wall  
Mene mene tekel na parsin  
Chorus  
I am in your way o  
I am on the way eeh  
I am in your way I hold on to your promises  
Verse  
Thats how I took hold of the eternal life  
Before I tackled the devil  
The maga don dive  
He got me singing  
Ewonubari na mtamax2  
I was pressed hard on every side  
Perplexed not in despair  
Struck down but not destroy  
Pant for water like a deer  
This is no air  
This is one breathe  
This is one prayer  
Alzheimers now clear  
Lupus done fear  
Ye yea yeah  
Chorus  
I am in your way o  
I am on the way eeh  
I am in your way I hold on to your promises  
On my way  
I am going so higher never ever stop  
On my way  
Chukwu wike ooh  
On my way
