

Turning Around

Joyous Celebration

Storms may come
Winds may blow
But this I know
I am sure Christ is always with me
Even though I may go
Through the fire and the floods
I am safe under the shadow of His wings
The enemy comes up to still, kill and destroy
Christ has come that you may have life in abundance
No matter what you may be going through
Im here to declare that Jesus is
The way, the truth and the life
Turning around, around, around
Turning around, around for me
No matter what the situation Hell bring you through
No matter what the circumstances, He will make a way
His word is alive, His promises are true
Hell make a way, Hell bring you through
His word is alive, His promises are true
Hell make a way, Hell see you through
Hayi, (Wheh!) kumnandi
Kumnamdi kwelakithi ePotters House
