Oga e be like say you no know who you be o
You carry the almighty inside of you
Oga no die because you no know
No need to fear
Because Jesus na the mighty God
Everything belongs to our God
The universe belongs to our father.
Wetin you think and say is all that matters
Change what you say, you will see the difference
I choose to see what he sees
I go say what he says.
As I look into his word
From Glory to Glory
Bridge
I am a superman
I am so rich
Favoured on every side
Am so blessed
Forward and upward is my direction
No need to fear for what tomorrow brings
Because

Everything belongs to our God
The universe belongs to our father
Oga e be like say you no know who you be o
You carry the almighty inside of you
Oga no die because you no know
No need to fear
I am a superman
I am so rich
Favoured on every side
Am so blessed
Forward and upward is my direction
No need to fear for what tomorrow brings

Everything belongs to our God
The universe belongs to our father
Wetin you think and say is all that matters
