

# Feel Your Love

**Don Moen**

Verse:

Feel your love surround me  
Your presence all around me

Baba Baba

Father God

Feel your love surround me

There is no one like you

Loving me like you do

Baba (baba) Baba (baba)

Father God

There is no one like you

Chorus:

It's in your name that I found love

I give you praise for all you've done

You call me by my name

I will trust in you

Feel your love surround me

Verse:

There is no one like you (no no)

Loving me like you do

Father God

There is no one like you

It's in your name that I found love

I give you praise for all you've done

You call me by my name
