

# Holy The Angels Bow

## Joyous Celebration

[Repeat]

Holy, holy, holy, Lord almighty,

Hallelujah

We praise you

The angels bow down

Declaring your majesty

Demons tremble at

Sound of your name

You're high and mighty

Lord of glory

Your light shines brighter

Than the morning star

The angels bow down

Declaring your majesty

Demons tremble at

Sound of your name

You're high and mighty

Lord of glory

Your light shines brighter

Than the morning star

Holy holy holy king of

The heaven a strong tower

You reign Lord

The angels bow down

Declaring your majesty

Demons tremble at

Sound of your name

You're high and mighty

Lord of glory

Your light shines brighter

Than the morning star

The angels bow down

Declaring your majesty

Demons tremble at

Sound of your name

You're high and mighty

Lord of glory

Your light shines brighter

Than the morning star

Lord there is nobody

[Repeat]

Like you

You are holy

Lord there is nobody  
Like you  
You are holy  
We give you all the glory  
The angels bow down  
Declaring your majesty  
Demons tremble at  
Sound of your name  
You're high and mighty  
Lord of glory  
Your light shines brighter  
Than the morning star
