

# Set my heart on Fire (Cover)

**Uduak E.J**

Theres so much that I wanna do for you my king  
sin takes me so far away from you  
I try run a million miles just to reach you  
But my heart starts to faint at the very first step  
My love for you is growing cold as the days go by  
Just like a vessel filled with oil but no fire  
I dont wanna be found wanting when you return  
Light me up until the morning comes  
Set my heart ablaze just for you  
I want it to burn for you  
Oh lord  
Set my heart on fire for you  
Oh Lord  
Set my life in order for you  
I wanna burn for you  
I wanna know your ways
