

# My Whole Life Changed

Tebz Smith

Chorus

I see the Light  
I know the truth  
Hes got my life  
I was a fool (thats right)  
Sometime was blind  
Now I see so bright  
His grace has got me out from sin O yeah Im free  
O yeah Im free  
My whole life changed, my whole life changed (that day)  
My whole life changed, my whole life changed (right there)  
My whole life changed, my whole life changed  
My whole life changed, my whole life changed

Verse 1: Tebz Smith

Alright now Stop!

Got some very few things to say let me start from the top  
I was weak every week in my sin so scared I will burn  
Lots of pain, lots of fails, lots of fakes, I thought I was done  
But nooo, I got a testimony  
Yeah  
Everyday I feared for my life  
Paralyzed, mesmerized, (yeah, yeah) with my life  
Improvised with the vice every way I fell so short, short, short for the vine  
Yeah! See my life all clay, when I fall I break  
Boy I left my maker, engrossed with my killer, got no filter, no meter, with a full tank on my  
way to the heater  
On my way to the fall I was brought down  
Depressed with own ways I was knocked down  
I became someone people can trust, my friends be like o yeah he changed now  
O yeah He did it  
Brought me out from my sins He cleansed me  
People be calling me pastor now  
I no too like am  
The koko is my old life is that my old life is past me now  
Im redefined and sanctified  
I can now speak against the former now, dont even try to stop me now  
Im free in him  
He can save you too and free you too  
No matter what you think youve done so wrong  
His blood is much to wash them all  
He paid a costly price to get you out dont wait too long

Repeat Chorus

Verse 2: Samzy Sam

Man I was a living dead, more like em zombies  
Tending my cravings, all about flesh, slave to my own will  
So blind to the truth, chilling with addictions  
Seeing light as darkness and vice versa, stuck in delusion  
I was chasing vanity and my selfish dreams, I was empty  
Without Jesus Christ the truth, I was living everyday in sin thinking I could be what I wanna be  
But never thought of where Im gonna be,  
Hell, if I never murder me  
I was fast on the wide lane moving to the burning hell till I met the King of Kings  
He saved me cos I was on my way to the fire buddy  
Im brand new yall look at me  
All of my painsre in the past buddy  
Thats why I speak the truth which is Christ  
So yall be free from em lies  
Man Im in Christs train join that ride  
Im free buddy like them blacks  
Is anybody there that wanna be free too  
Anybody that wanna get rid of his sins  
Buddy just come right to the truth  
And the devils lies are gonna make you sick bruh  
Cos buddy youll be redeemed from within  
And your past will be past cos  
Sin is old fashion, this is new school  
I was living foolish till I got Christ the truth, my whole life changed.
