

# Take Me to Jesus

Mauriz

Verse 1

I remember the lessons  
That I have learned  
Through every mistake  
The scars I can see them  
They are like signs  
But they would be friends to my future  
Cos theyve been there before  
And they would never walk away  
With feelings I fight  
Through step of the way  
Sometimes when I wouldnt pray I often disobey  
Ive tried so many things and  
Ive seen the other part  
Ive come a long way  
Ive come a long way

Chorus

Take me to Jesus  
Take me to the Lamb  
Take me to the feet of the one who never fails  
Take me to Him who  
Always have a way  
Ive come a long way  
Ive come a long way  
(x2)

Give help to somebody  
Theres always someone at the door  
Teach them the word of life because  
It defines the wrong and right  
This battle wouldnt end  
It will never fade away  
But only if yah hold my hand  
We will all be free  
Dont you hear the silence  
Someday we will all be gone  
Nobody has forever  
If truely we are one  
Then you should give me this water  
So I can quench my thirst cos  
Ive come a long way  
Ive come a long way so  
Repeat Chorus  
And to the weary people

The weak and broken people  
I don't know how we'll make it  
On our own  
On my own  
Take me to Jesus  
Oh oh oh  
Take me to Jesus  
Oh oh oh  
Take me to Jesus  
Oh oh oh  
I've come a long way I've come a long way  
I remember the lessons  
That I have learned  
Through every mistake  
The scars I can see them  
They are like signs  
But they would be friends to my future  
Cuz they've been there before  
And they would never walk away  
So when ever I fall down  
Or when ever I hit the ground  
You may not even understand me but just  
Hold my hand and take me to Jesus  
Take me to Jesus  
Just hold my hand and take me to Jesus
