

BNCH WRMRS

Royrex

(Rap)

I am just rapping off the dont
Mehn, I wrote this on my note
Just watched a couple SLAP Battles
Thank God that stuff is grown
Conviction Versus Guilt
Holding On and Giving Up
I thank yall for using Rap Battle mehn, to spread the Word
Christian philosophy is what Im talking bout
And a lot of yall have messed up views about my God
Trials, Temptations, Tribulations and all of that
Some even think that the devil is Gods messenger boy
I know its crazy
Keep your mind straight its full gazy
Colossians 2:8 beware of some philosophies
At the top hommie is the only place that you can spot me
You cant stop me like the rapper Andy with the glasses
Its Complicated I speak Da T.R.U.T.H. and youre laughing
When I say God didnt cause all the things that have happened
The genocide, killings and even the 911
People died, rose up and told us they went to heaven
Oh really?
Omo my guy, see deception
From most of the Christians, mehn even the pastors
They tell you to bring your tithes or boy Godll curse
And Hell destroy you and give you over to the devil
Thats wrong, I dont even know where Ima start from
But Jesus is the right one
And I cant stand Christian Rappers
Who say His name less to get famous
Appreciating secular media outlets
Its J youve been Given (JGivens)
The Son of Man is risen
He took away your sins and trust youve been forgiven
Delivered, like Angel Michael wearing the Jordan
And Ima tell I won boy battle is over
Its real and stop praying prayers like these
Lord if it be your will, tell the devil to chill
Boy you have the God power, send the devil away
And you have the will of God mehn, pray it always
You gotta get another ride cuz this roller-coasters stolen
Deceit got me paralysed, Oh my God Im frozen
And lately, damn Ive been living in depression

Take it off of me boy, I cant handle the pressure
And Satan be like Oh but you can handle pleasure
And you can hit the girls thatll be staying in your area
Oh you from Nigeria
Oh it is in lineage
And you are mine now, youll be seeing from my vintage
Hey, stand up buddy, you can have a good sequel
Condemnation has been dealt with in details
So dont go sinning but keep believing
And never roll with the Sadducees cuz theyre Sad-to-seeing
I used know a guy once who was battling addiction
He did it over and over again till he was weaken
He started flipping a lot of pages of the scriptures
Guilt came but a stronger one did, it was conviction
It would convict your dead and ignorant mindset
My people perish only because of lack of knowledge
You got injured from your sins, Grace is the bandage
And never let the devil mehn keep you on the average
Youre the blessed of God
So steady stay at the top
Keep bulldozing demons
Like you falling a house
Its just a matter of time before we see in the clouds
In glory with the Father singing worthy you are
Its Real
Yo! Dont be a BNCH WRMR
Dont Act Christian, Be Christian.
