

# Lagi Mo

## Cobhams Asuquo

[VERSE 1]

Yo! take my picture, Cheese  
I know we're big here, We're also big overseas  
Guys around the world are feeling our sneeze  
And the ladies are screaming it's ROOFTOP MCS  
See that's us in the spot light  
With our clothing line, You know, we look tight  
Make cheddar faster than we can spend it  
Got our own comics, investments in Germany  
By thirty five, I own my own jet  
Mansion by the lake and I ain't done yet  
Wait a minute, I'm losing direction  
I feel foolish, I need your correction  
Put first the kingdom, my brother  
And the things you boast for, na jara  
Lord please bring me back  
If you have to hit my head, like a conga slap

[CHORUS]

Ori mi wu o... e lagi mo  
Ori mi wu o... e lagi mo, e lagimo,  
E lagimo

[VERSE 2]

Dear Lord, Yes, I am back again (again)  
Need you to put me back on the track again  
Save me cos I'm slowly going insane  
Maybe I should take time to explain (Go on explain)  
You gave me the music but I abused it  
Music brought fame and yes I misused it (Ahan)  
Every other night your help I refused it  
I don't understand how I got confused it  
Seems like I'm addicted to the mic and the lime light,  
(lime light)  
Sacrifice rhyming right just to rhyme tight (rhyme tight)  
Autographs, photographs and reviews  
Polygraph, my paragraphs and interviews  
It ain't hard to see I have not been true  
Not to the public but to you (to you)  
Lord what I'm saying is with no delaying,  
my flesh needs slaying

[REPEAT CHORUS 2ce]

[BRIDGE]

My head is spinning like a carousel for all the attention  
And I can not deny that I'm enjoying the attention

Crowd is cheering loudly, the world is looking at me  
And for one second, I forget that this is not about me  
And the spot light is on me if the world could only see that  
I'm just another vessel bringing glory unto thee,  
Don't let get to my head, Please save me Lord from my flesh  
And kill my hidden pride until I am broken deep inside  
[REPEAT CHORUS]
