

We need You

Goodnews

In the cool of the night
I seek your face
In a busy world
Ill be chasing and running after you
In the darkness of night
Youll be my light
Though thousands of foes surround me
Ill keep my gaze on you
When darkness is looming everywhere
I will not be moved, I will not be shaken
Cos you are here with me
Spirit of the father
Teach us how to pray
We need your presence oh lord
We need your presence oh lord
Every day and every moment
Let your presence fill our heart
Purify us with your fire
So we can stay ablaze
Cos the world needs us and we need your presence
We need you
