Rap:

Release revival- (5)x Oh yeah

Am on a quest to Zion I need the strength oh lord the grace to carry on

The ship is about sinking the time is ticking

And I heard that you are coming, the question is am I ready, that I dont really know, oh

My path is getting darker the wave and storm is heavy is hard for we to sail through

But I believe in you, I put my hope and trust in you I want your signs and wonders show me
your powers

Every minute, every hours every, plans of the wicked send them back to sender

Let your power flow let it flow like flood let it wash away every sickness in our blood

Take away tears from the eyes of the people let the blind see let the lame walk let the sick be
healed

Take away pains and let joy rains like a tears from the sky, give us long life so we may never
die premature oh yeah

Upgrade your spirit within us let your miracle begin

Heal the sick Right now and glorify your name

Let your fire fall oh let your spirit move yeah

Were here in your presence, we gathered in your Name

Renew your Spirit within us let your miracle begin
