

# Breathe On Me

'Delani

In the young and lonely night  
I'll wait on you  
To create what is unknown  
I'll call for you  
Breathe on me  
Spirit of the living God  
come stir these waters  
Surface hidden treasures  
Open my eyes  
Breathe on me  
Breathe on me  
Breathe of God  
Stir a longing in my soul  
Breathe on me  
Holy one  
Come restore, come renew  
Breath of God, breath of life  
Resonating my soul  
You restore broken wings  
I will fly on winds of mercy  
Breathe on me  
Softly slowly  
The morning breaks  
Awake my soul  
Surely You will  
Recall my first love  
Softly slowly  
Your breath ignites  
And I burn wild  
Surely Your love  
Is making all things new  
Oh my very essence  
Is to love you  
Oh my very essence  
Is creating Heaven on earth  
I am replenishing life  
I am resetting your system  
I will lead you to still waters  
I am restoring your soul
