VERSE 1

What you have is a Rifle,

You can shoot through Life,

When the pain tryna fight you,

try to keep the Boxing vibe,

Doesnt matter when you lose,

Itll help you grow,

Cuz you never ever had that chance like a Dynamite,

Youd Blow!! (blow),

At a time you lost that Faith,

Your Hope dropped in a drastic rate,

You kept dealing with a past regret,

Trying not to cry, but you hit that bait,

He suffered Depression and fell in addiction,

The basic distraction in Life,

Just put on your focus and look up to Heaven,

Just try to believe with a smile (Smile)

CHORUS

Hope you know e go dey alright,

Genesis of a better Life,

When e dark, put on your Light,

Get-off the wheel so He can drive ya,

hope you know e go dey alright,

Youll be needing a Shade, tomorrows bright,

When e dark, put on your Light,

Anyhow wey e go, He gat your back

VERSE 2

Feeling empty, i dunno what to do,

Feel so confused, i dunno where to go,

Left with an Arrow, i dont have a Bow,

I stopped believing, think Im running low (yea) ,

Shey You say You go dey with me,

My walls dey break is that your will,

Lost my focus thinking of Bills,

Gettin tempted to pop em pills (Lord!)

CHORUS

Ben Udo lost his only bro,
Bolaji is down and hes so broke,
Chiamaka dropped outta School,
Ahmed is suicidal, the more he grows

VERSE 3

If you try to dey live fake life just know e go end up soon,
No be everybody you go try to impress,
So you better better leave that zone,
Cuz, if you even try to impress,
Dem go smile for your front for your back dem go bone,
So live up your life then release you potential,
And just hit that road,
So hold on to God like a wallet
you can not afford to leave at Home,
Fix up your mind, revolution on fleek,
Some Malcolm build-up tone,
God no go leave you for road,
Im certain tho, youll make it home,
If it ever gets so dark, put on your Light
And shine that lightBright ?

CHORUS
